

**Redux!**

## What is Redux?

State management library
Makes creating <i>complex</i> applications easier
<i>Not</i> required to create a React app!
<i>Not</i> explicitly designed to work with React!

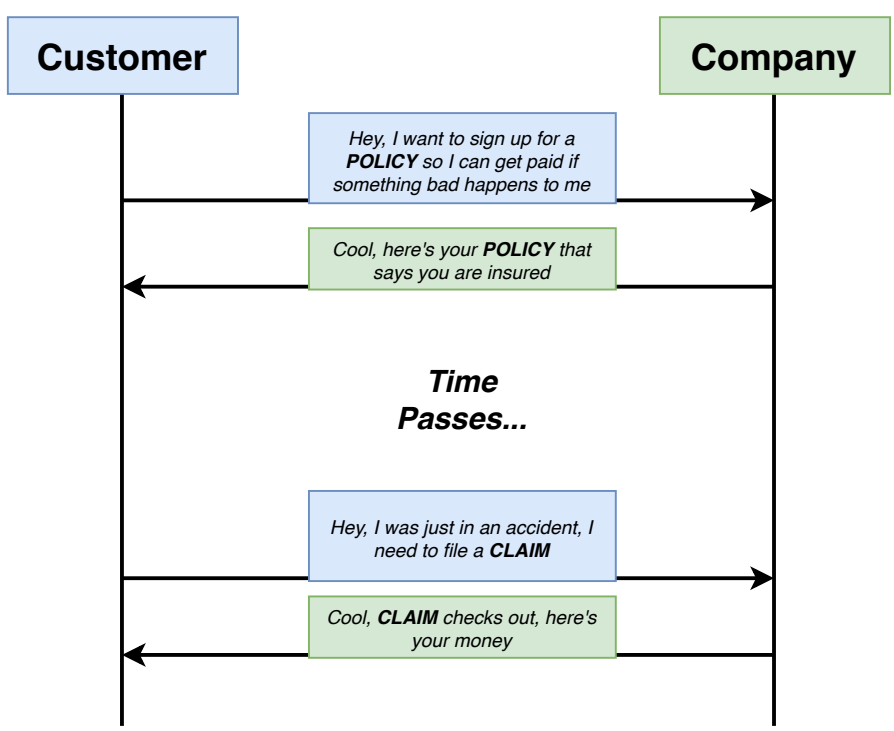

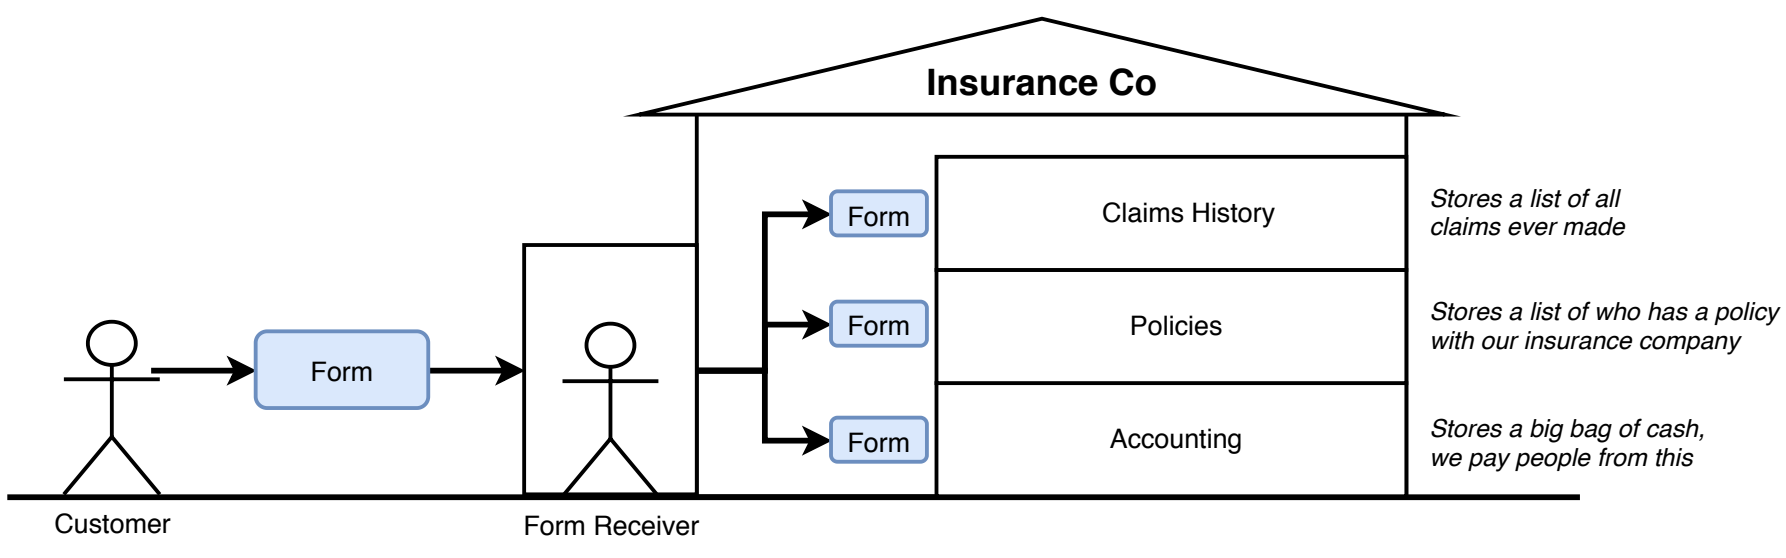

Let's build an insurance company!

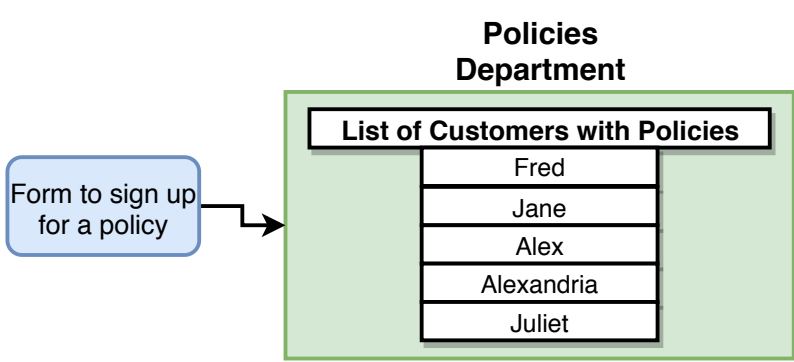

policy	Customer holds a 'policy', if bad stuff happens to them then we pay them
claim	Customer had something bad happen to them, we need to pay them

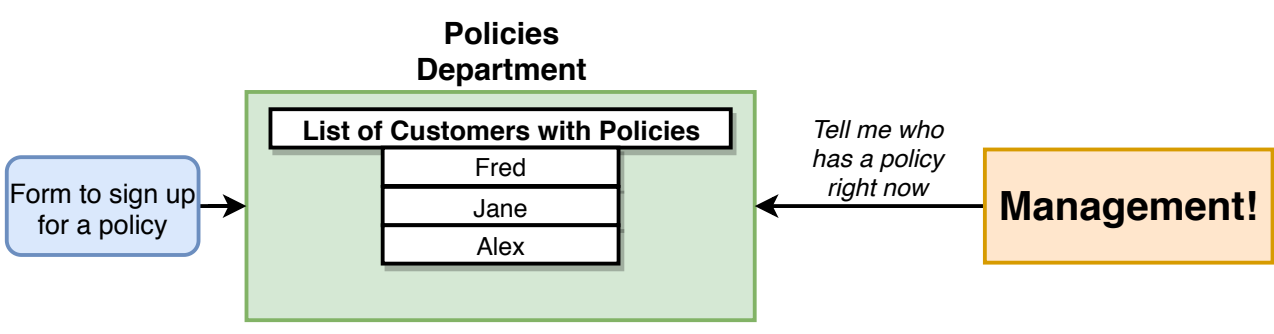

*These are insurance terms, not Redux terms*

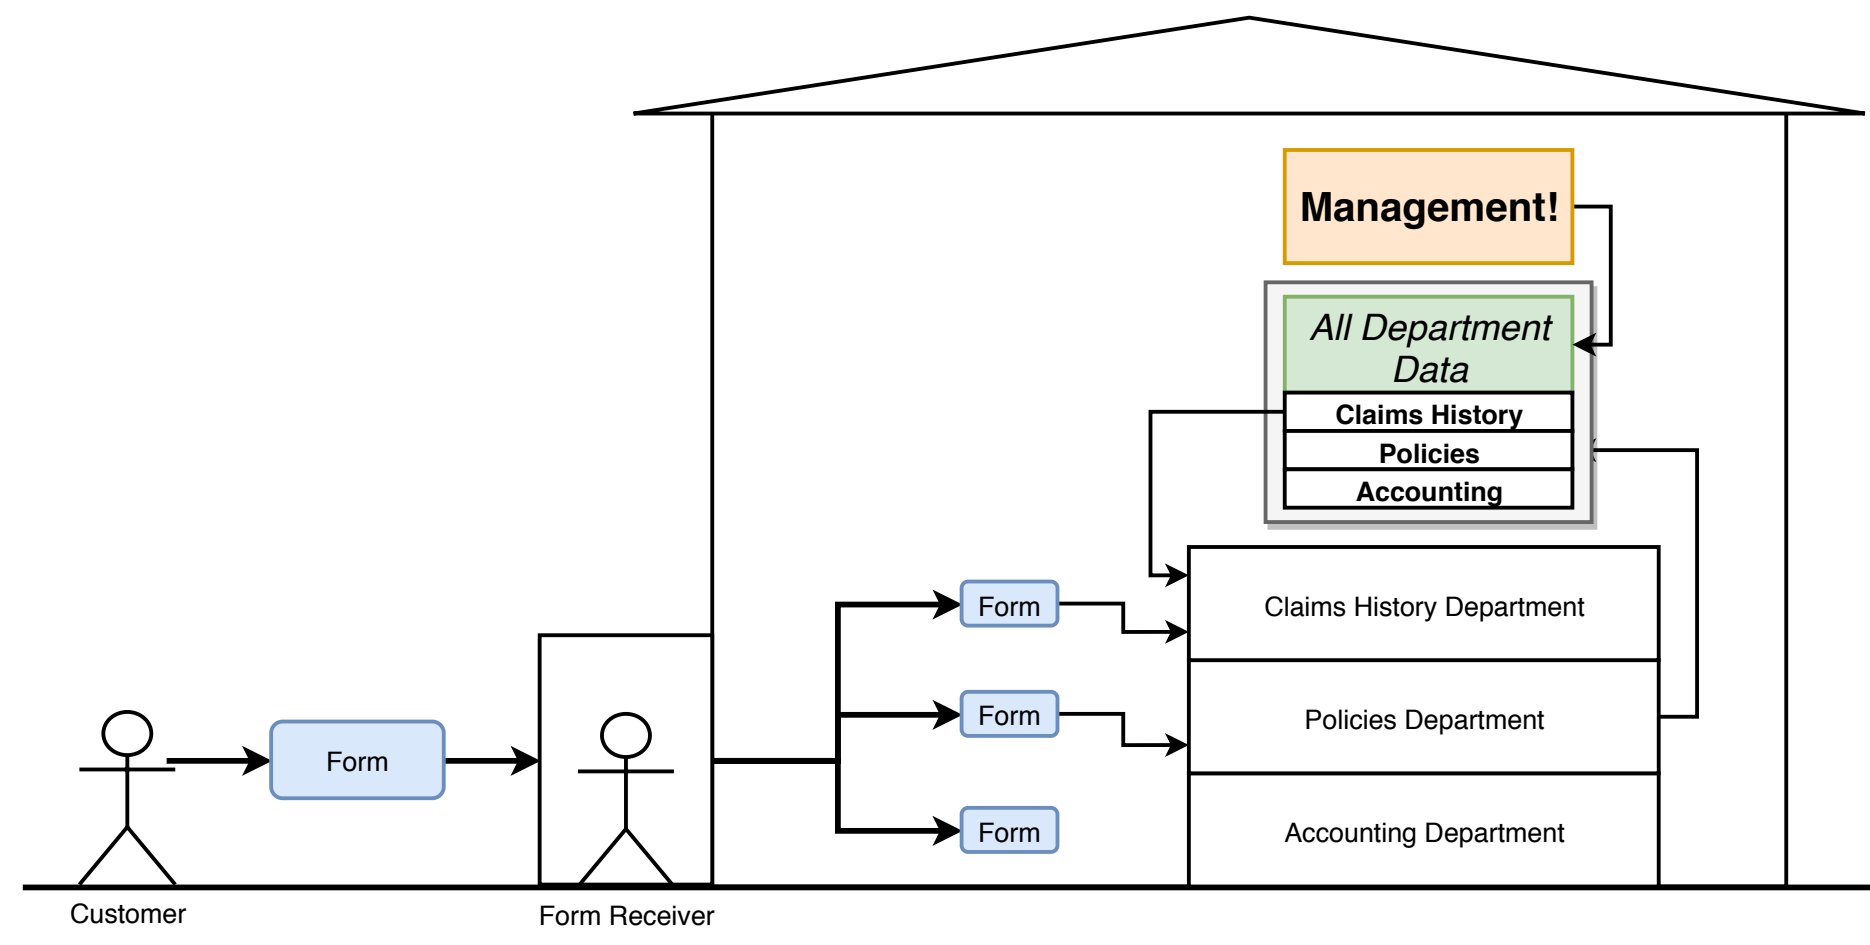

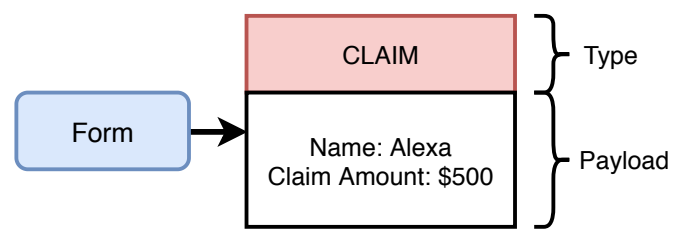

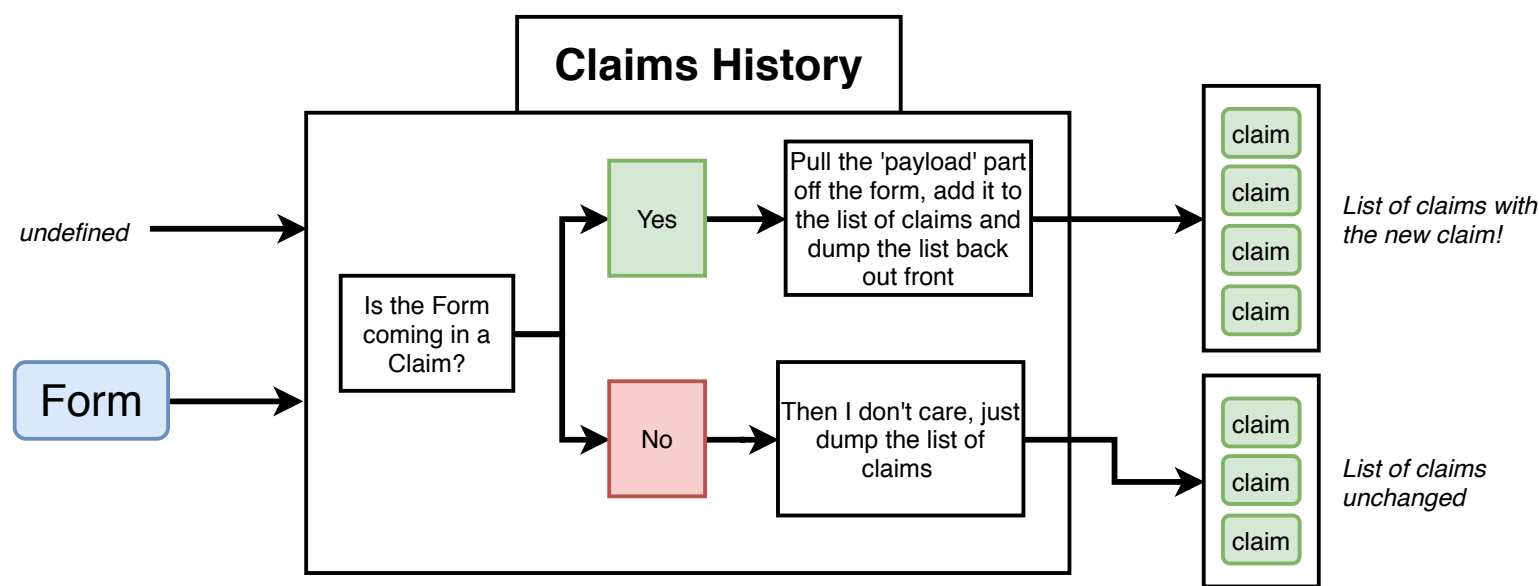

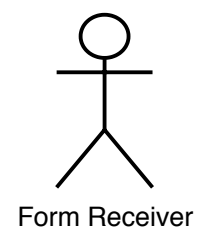

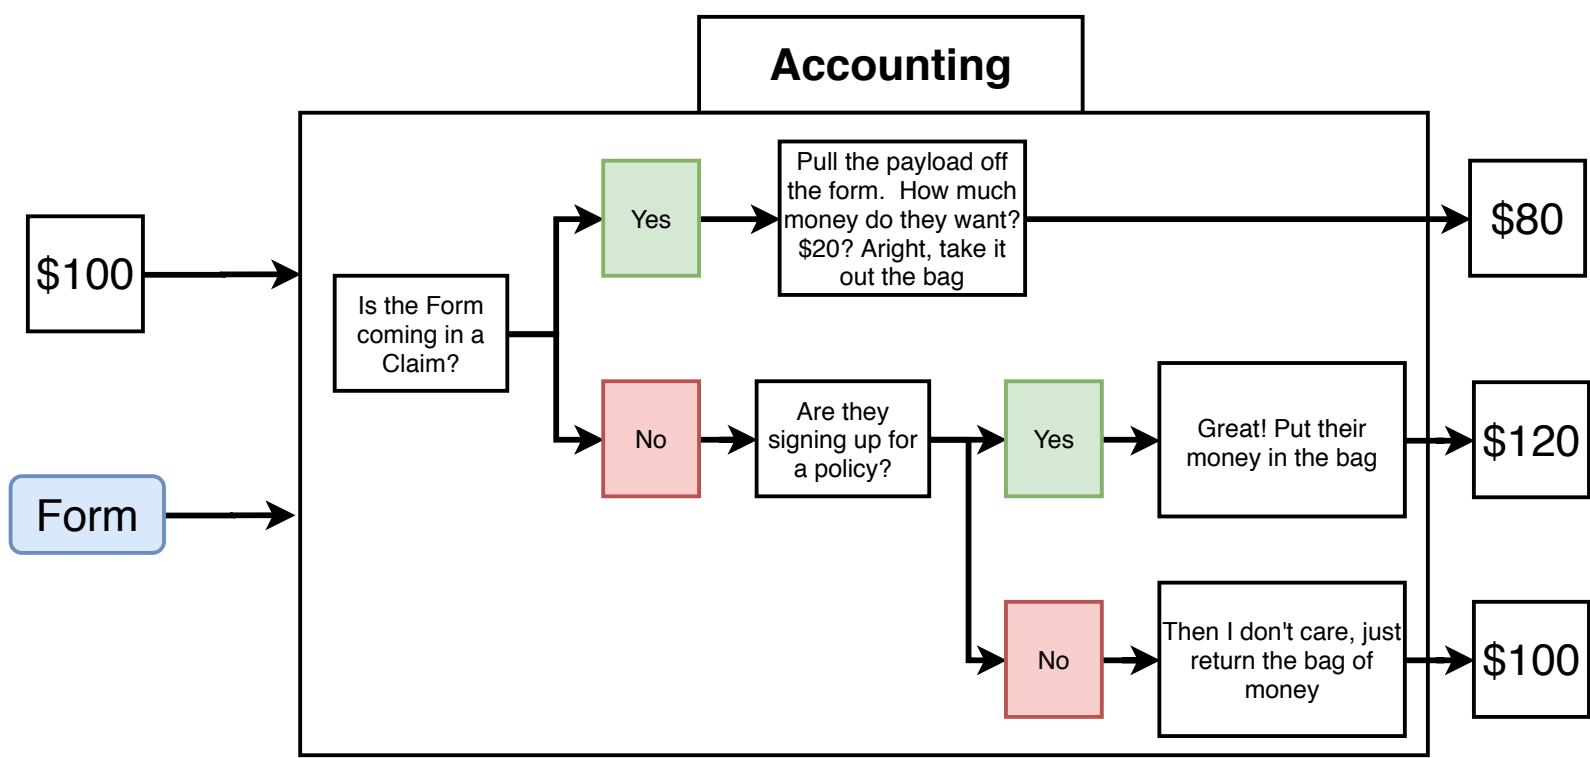

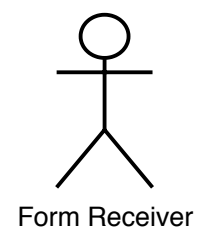

CREATE POLICY	CREATE CLAIM	DELETE POLICY
Name: Alexa Cash: \$20	Name: Alexa Claim Amount: \$500	Name: Alexa

Hey, here's a new form  
someone left. Also,  
here's a list of all the  
claims we have

Hey, here's a new form  
someone left. Also,  
here's a bag with all of  
our money in it

Hey, here's a new form  
someone left. Also,  
here's a list with the  
names of everyone who  
has a policy
